F2G Solutions Named Supplier of the Year – Class 2 Excellence Award by the Dallas/Fort Worth Minority Supplier Development Council

F2G Solutions creating jobs in the technology industry and growth within the community

Dallas, Texas (PR WEB) November 26, 2019 – F2G (Far Together) Solutions, led by CEO Francis Kamgang, received the prestigious Supplier of the Year – Class 2 Excellence Award at the Dallas/Fort Worth Minority Supplier Development Council's black-tie E Awards Gala held on November 15, 2019. The Supplier of the Year – Class 2 award is selected from certified ethnic minority-owned companies with annual revenues between \$1 million and \$10 million.

Each year the D/FW MSDC E Awards Gala recognizes leading suppliers based upon their overall growth, excellence in operations, contributions to the community and utilization of other minority-owned firms in their supply chain. F2G Solutions is committed to impacting our community by providing skilled jobs to men, women and underprivileged members of our community. Far Together is more than part of their name – it's the F2G philosophy. Since 2017, F2G has created more than 80 full-time jobs in the mostly advanced technological environment – 5G, Mobility, Advanced Network Connectivity.

"We are committed to providing our clients excellent solutions," said Kamgang. "But my real passion is training and employing women and men from the local community and teaching them valuable skills for now and the future."

F2G Solutions overall growth, innovative solutions and commitment to the community were part of their submission responses to compete in the very competitive Supplier of the Year – Class 2 awards. Suppliers like F2G solutions are being recognized for helping to transform corporate supply chains and create a competitive edge for their clients. Kamgang and his team have developed several innovative solutions that helped them participate and test the first 5G calls made by the top three wireless carriers and top two infrastructure vendors in the USA. They are contributing to the overall economic growth of North Texas and around the nation.
