

**FOR IMMEDIATE RELEASE**

## **F2G Solutions Is Named National Supplier of the Year – Class 2 by the National Minority Supplier Development Council**

**Tech Company, F2G Solutions, recognized nationally for its work the tech industry and the community.**

*Dallas, Texas, November 1, 2021* – F2G Solutions, led by CEO Francis Kamgang, was honored by the National Minority Supplier Development Council as the National Supplier of the Year – Class 2 for its operational excellence and impact to the community.

Headquartered in Plano, Texas, the tech-centric firm competed against like-sized minority-owned companies nationwide in a variety of industries. The prestigious award highlighted F2G’s innovative business solutions in the fast-passed technology industry.

F2G Solutions created one of the first mobile testing vans which

allowed them to join equipment

with leading carriers and original manufacturers (OEMs) to produce the

first mobile 5G calls made in the country by the top three wireless carriers.

“I am excited our team was recognized nationally as the best,” said Francis Kamgang, CEO of F2G Solutions. “I am even more excited about the attention this award provides to spotlight the need to increase engagement of more minorities in next-generation technology opportunities. Our company is not only interested in being the best, but in providing training and opportunities to others to enter and succeed in the technology field. Technology touches every aspect of our lives and digital awareness and education is key to changing the dynamics of underserved communities.”

F2G, which stands for Far Together, foundational philosophy is to work together to build a better and more sustainable world for everyone. Prior to the civil unrest that has impacted our nation, F2G Solutions had already set a strategic direction and emphasis to do more to bring minorities into the technology industry. The firm’s results speak for themselves. They have

created full-time jobs in 5G, smart phones and network product testing in the field and in the labs, data cabling, and advanced network optimization, mostly through the hiring and training of minority candidates. Kamgang, who is a firm believer in educating and mentoring the next generation, recently worked with Prairie View A&M (a Texas HBCU) to setup an internship opportunity for engineering students. He has since hired their first intern full-time into the company.

F2G Solutions' commitment to creating and delivering creative solutions is helping their clients transform their corporate supply chains, create a competitive edge in the marketplace and diversify their approach to engagement of suppliers. Kamgang is interested in the opportunities that exist going forward to expand F2G expertise in other ancillary industries strongly impacted by technology, i.e., education, healthcare, software/application development and automotive. In addition, he is focused on creating a technology lab to help train and place minority candidates for sustainable high-paying jobs in the industry.

Prior to winning the national award, F2G solutions was recognized locally in 2019 by the Dallas Fort Worth Minority Supplier Development Council as the Supplier of the Year – Class 2 E Awards winner. DFW MSDC, then nominated F2G Solutions for the national competition. The DFW MSDC E Awards are highly competitive awards is based upon criteria designed to highlight a dedication to minority business inclusion, especially in North Texas, and a commitment to the mission and direction of the Council.

Kamgang is former engineer with Nokia, who decided he could do more and have more impact by starting his own company. After acquiring DSI Telecom, he has transformed and rebranded the company into a successful firm destined to do more and be more than even he could have imagined.
